Dealer Network

100+
Distributors
present across India

Chicago Pneumatic compressors have strong Distribution network operating from almost every state ensures effective reach to the products and services to the end users across the country. Of which, around 75% of dealers have been associated with us for more than 15 years.

To findout your nearest Distributor please check www.cp.com

Regional Customer Centers

West	Maharashtra
North	Gurgaon
East	Kolkata
Central	Hyderabad
South	Bangalore

Area offices: Ahmedabad, Baroda, Chandigarh, Chennai, Pune
Resident offices: Coimbatore, Erode, Kochi, Jaipur, Raipur, Vizag

Toll Free No. 1800 120 110 040
Email: customer.care@cp.com

Introducing the Future of Air Audits – “Airchitect”

Why Airchitect?

- Up to 35% energy losses due to unload
- Every 1 bar drop in pressure output results in around 7% energy savings
- Older installation have leakages up to 20%

AirXtend

Have complete peace of mind with **AirXtend**, our extended warranty plan on **Screw Element**

Be it any application, the reliable operation of your compressor is key. With our AirXtend, maintenance is done at the right time by professionals who know your equipment inside and out.

- Have a complete peace of mind with AirXtend, our extended warranty plan on Screw element.
- Using original parts and lubricants will uphold your system's energy efficiency and prevent pressure drop as all consumables are replaced on time using genuine parts.
- High uptime and energy efficiency reduce the operating cost of your compressor. In addition, AirXtend gives you maximum control over your budget.
- We give you top priority and support in case of urgent repair, after all you are an Extended Warranty + customer.
- No unnecessary spending.
- We order original parts in advance to avoid piling up of the inventory.

*For more details contact service representative

To know more visit us at www.cp.com/en-in/Compressors

We value your feedbacks and endeavour to continuously improve our products and services.

Service ahead of time.
Original parts, your quality assurance.

iPM Compressors - The One stop solution

Well designed cooling system

Latest Variable Speed Technology

Smart MAM / ES 4000T touch controller

Latest Variable Speed Technology

- Perfectly matches air supply to air demand
- No unload losses as for fixed speed compressors
- Narrower pressure band -> lower working pressure
- No peak current at startup -> no penalties

Latest Generation Oil Cooled Permanent Magnet Motor

Smart Controller with RS 485 for Seamless Connectivity

In-House Design "1:1 Drive Train" for optimized Power Transmission.

Enhanced savings with the best in class Drive

Element Design & Drive Train

- 'In-House' latest design for optimized flow rates.
- Oil cooled drive train for durable & stable commissioning usage.
- Direct Drive Configuration for excellent power transmission
- Wide Range in Pressure Band for better control.

Usage Friendly Design

- Compact layout saving installation space
- Pre-filtration
- Quick access for regular service
- Easy clean on cooler
- Intelligent Controller
- Smart Touch Controller with RS 485
- Port for Modbus Connectivity.

Performance

- Design for Maximum Energy Savings
- Minimum transmission loss
- 'Best-in-Class' inverter with integrated control
- High technology iPM motor for premium performance

Oil Cooled Direct Drive with Inverter

New innovative drive train with iPM motor technology

CPMV & CPVS (10-50 iPM)

The proven CP IVR Design

~45%

SUPER PREMIUM EFFICIENCY
IE4
MOTOR

Integrated - Inverter Drive

Horizontal Oil cooled iPM Motor technology

A big leap in energy efficiency (~45%)

Choose from a wide range of Heavy Duty 'Latest Generation Variable Speed Drive Compressors:

1. Direct Drive (1:1) for enhanced savings
2. World Acclaimed "Horizontal Design" for EASE OF SERVICE
3. IE 4 "Super Premium Efficiency Class" 96-97%: Motor Rating
4. World Proven 'Oil Cooled' iPM Motor design reduces working temperatures.
5. Up to 45% Energy Savings (Compared with Traditional Compressors)
6. Integrated Variable Speed Drive for Maximum Savings.
7. MAM / ES 4000T Controller for Complete peace of mind*

Working principle : iPM motor

1. Permanent magnets are housed inside of the rotor (hence the name interior permanent magnet motor)
2. Electrical current flows in a rotating motion in the stator windings = Creates a rotating magnetic field
3. The permanent magnets inside the rotor will be attracted and start rotating with the magnetic field

iPM motor construction

IE4 Super Premium Efficiency iPM motor

- Upto 5% energy savings vs. IE2/IE3 induction motor

Oil Cooled iPM motor (Interior Permanent Magnet)

In-house designed iPM motor

- IE4 Super Premium Efficiency (96% – 97%)
- Direct drive configuration for enhanced savings
- Latest IP Protection class
- Proven Oil cooled design
- Horizontal configuration for easy maintenance
- 100% 'In-House' design

IE4 Super Premium Efficiency iPM motor

- Upto 5% energy savings vs. IE2 / IE3 induction motor in CPMV

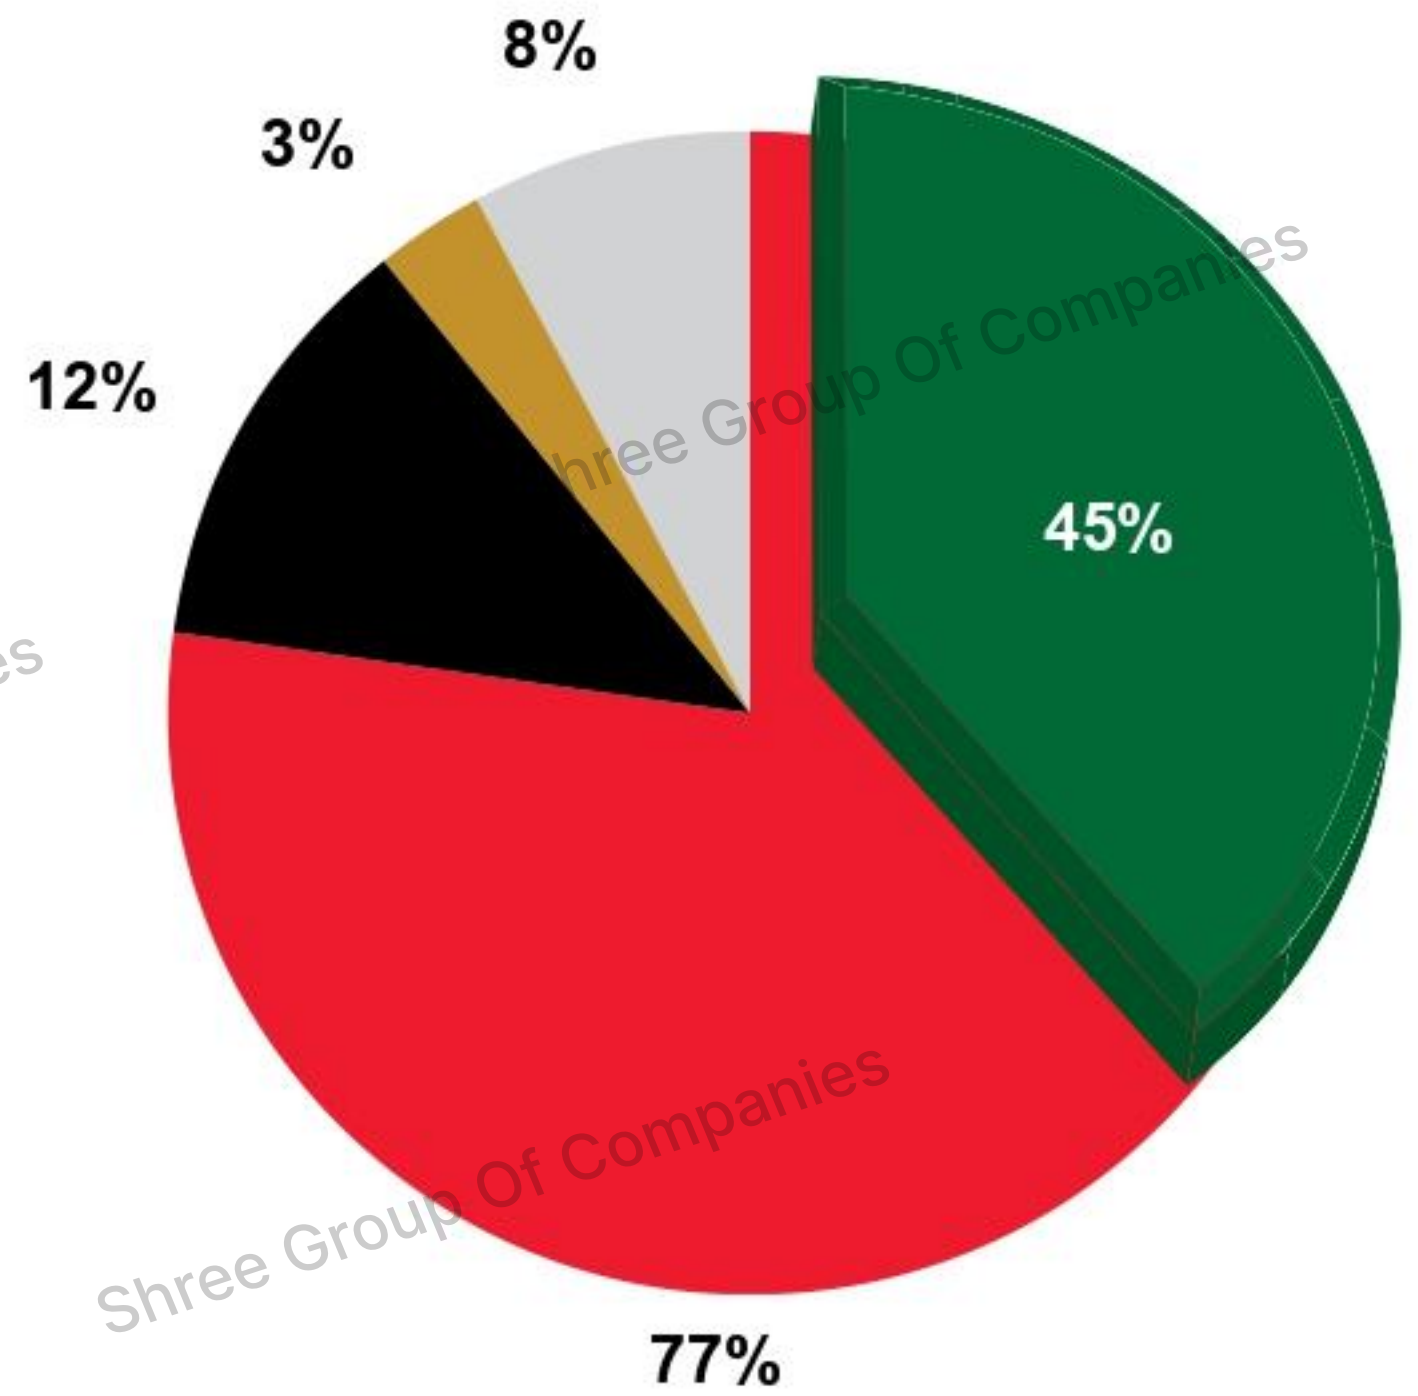

Why iPM technology?

Contact : 9300723311

Facts

- Energy costs represent about **70% - 80%** of the total cost of ownership of a compressor
- Majority of customers have a variable demand for compressed air

- Energy savings
- Energy consumption
- Service
- Energy savings
- Installation

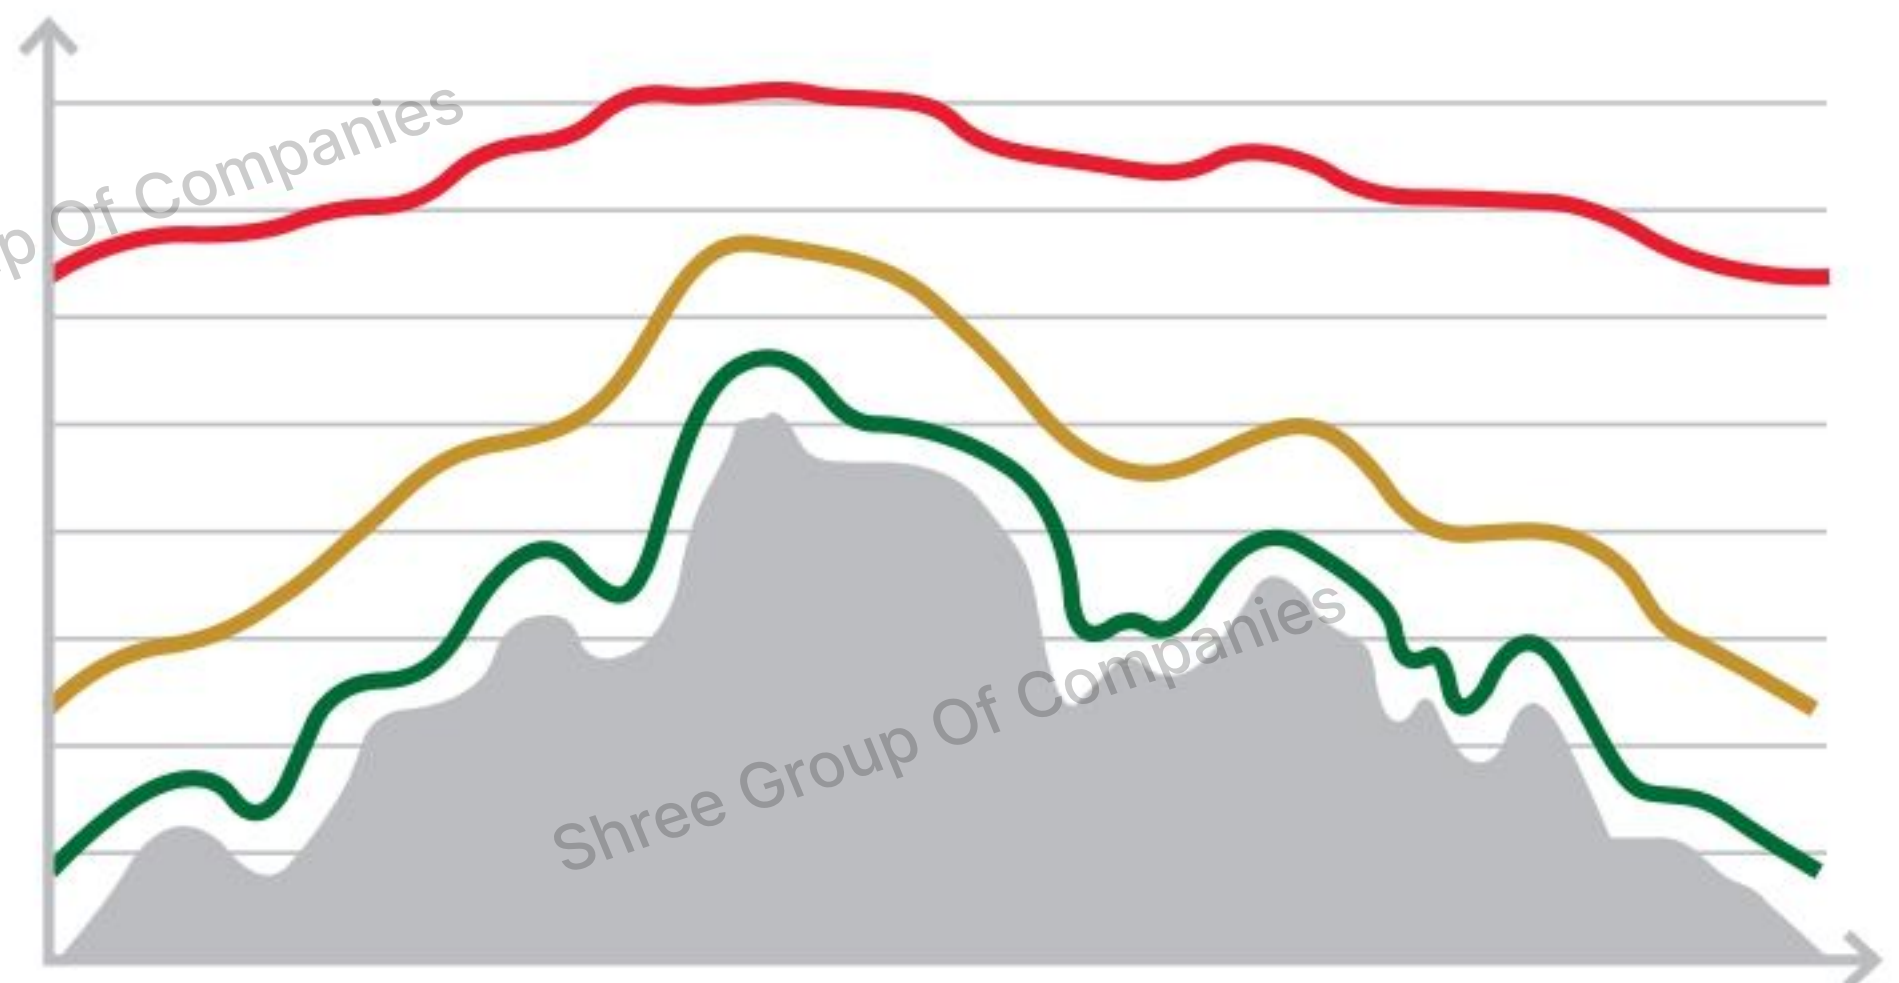

Traditional Variable Speed Technology vs. Fixed Speed Technology

- Reduced energy costs with **30-35%** in variable demand applications

CPMV iPM vs. Fixed Speed Technology

- Reduce energy costs upto 45% in variable demand applications
- **Combined effect of :**
 1. Latest Generation Variable Speed Technology
 2. Highly energy efficient drive train with iPM motor technology.
 3. In House Designed "Screw Element"

Energy cost

- Air Demand
- Fixed speed technology
- Variable speed technology
- iPM technology

Time

Over a 120 Years of Industrial Excellence in India

Chicago Pneumatic (CP) is a global leader in the design, manufacture and distribution of high-performance compressors. In addition to pioneering design, high impact technology and durability, Chicago Pneumatic means Customer Value. Our goal is to deliver best-in-class global service and local support to our customers through a dedicated product portfolio and a strong network of authorized distributors. We generate added value by delivering the best solution to meet your needs based on our decades of experience.

Today, CP is a global brand that offers products for countless applications and almost every industry. We are also proud to say that after all these years, CP still stands for reliability, durability and customer value.
